Dear Sir:

The Board of County Commissioners would like to have you serve as a viewer on Ditch No. 18. This is a comparatively small job and should not take very long to complete the work.

Will you kindly indicate below whether you can serve and as soon as I have this information will send you official notice and date of first meeting.

Yours very truly,

E. A. Carlson, County Auditor

Dear Sir:

The Board of County Commissioners yesterday held a hearing regarding application for cleaning of Ditch No. 18. It was found that the ditch needs cleaning and in as much as some new land has been added to the drainage area, it was necessary for the Board to appoint viewers.

The Board officially appointed S. H. Orr, Joseph Golden and yourself. They requested me to contact each one and learn if it is possible for you to do the work at this time. To enable me to send you official notice, will you kindly indicate below whether or not, you can serve at this time?

As I understand it, it is a rather small job, the ditch being only a little over three miles long so in all probability it will not require a great deal of time to complete the work.

Yours very truly,

E. A. Carlson, County Auditor
