Repairs Ditch No. 2 &

Viewers Report in Ditch Proceedings

Filed this 25th *day of* June, *A. D. 1920*

Arthur Rosvold

Auditor

MILLER-DAVIS COMPANY, MINNEAPOLIS

In the Matter of the Petition of Edward Anderson

and Others, for a Public Ditch in the County of Anoka

State of Minnesota, Numbered as repairs on County Ditch No 28

To the Hon. Board of County Commissioners of the

County of Anoka, State of Minnesota:

The undersigned Viewers, appointed by your order bearing date the 7th

day of March 1920, to view the route proposed in the petition of

Edward Anderson and others

for repairs on a public ditch, would respectfully report that we met at the time and place specified in the order of the County Auditor dated the 10th day of June 1920, designating a time and place for our first meeting preparatory to commencing our duties as such viewers —

and did view and examine the said public ditch from its source to its outlet, together with the branches thereof, and the lands over which the same passes, and the lands adjacent thereto to be affected thereby. We did estimate the benefits and damages to lands affected by said public ditch; and we did cause to be prepared in tabular form, a statement showing the names of the owners of each tract of land to be benefited or damaged by the construction of said public ditch, the description of each tract benefited or damaged (said names of owners and descriptions being the same as appear on the County tax duplicates of said Anoka County), and the total number of acres in each of said tracts; the estimated number of acres in each of said tracts of land to be benefited or damaged (as the case may be), the number of acres added to any tract by the total or partial drainage of any meandered lake or by the change of any water course, and the location and value of such added land and the damage to riparian rights pertaining to any tract; and the amount that each tract of land will be benefited or damaged by the construction of said work; which said statement is hereby made a part of this report and attached hereto, marked Exhibit "One (1)"

And we did estimate the benefits arising therefrom to all roads, corporate roads and railroads, the roadbed or traveled tracts of which will be made better by the construction of said ditch

and did report said benefits, names of roads, and amounts of benefits to each in a tabulated statement hereto attached, marked Exhibit "Two (2)"

and did estimate and report as a part of such tabulated statement, the damages awarded to each municipal or other corporation for injury to any road or roadbed, and from the necessary construction of and maintenance of any bridges, culverts or other works rendered necessary by the establishment of such ditch, stating the same separately. And we do hereby report the total estimated benefits of said public ditch to be Forty two thousand Eight hundred forty nine Dollars, and the total estimated cost and expense of construction of said public ditch, including the damages awarded therefor, to be Forty two thousand six hundred ninety & 67/100 Dollars, and that the utility of said proposed public ditch is greater than the estimated expense of the construction of such public ditch, including the damages awarded therefor —

And we did cause to be made a statement of the actual time we were engaged in said work and the expense incurred by us, which statement is made a part of this report, marked Exhibit "3"

and we do hereby report that the said proposed public ditch will be of public utility, and will promote the public health and will benefit the lands adjacent thereto and is necessary for the following reasons, among other things, to-wit; the lands to be drained by the proposed public ditch and its branches consists largely of low meadow, marsh and swamp land, interlaced by and interspersed by large areas of arable cultivated lands; the low land is cold, wet and sometimes
