VIEWERS.

Entered according to Act of Congress in the Year 1887, by Geo. D. Barnard & Co., St. Louis, in the office of the Librarian of Congress at Washington, D. C.

To the Board of County Commissioners of Carver Co, Minn.

In compliance with your order dated the 12th day of March

A. D. 1898, appointing the undersigned Viewers to survey and locate a ditch, drain, or water course, with Necessary Branches

described in the copy of the petition, accompanying said order. We do hereby respectfully report, that we did meet at the time and place specified in said order, to-wit: On the 12th day of

March A. D. 1898, at Carver Co Office

Contra Mann with a Surveyor, who was a civil engineer preparatory to the commencement of said work, and did make an accurate survey of said ditch, drain, or water course, and of Branches

from their respective sources to their outlets, as given in the

Plat thereof, attached hereto, marked "Exhibit 'A,' of Ditch No. 30" and made a part of this Report; and did cause stakes to be set along the line of said ditch, drain, or water course, and Marcher stakes

said stakes numbered progressively down stream at each one hundred (100) feet; and we have in tabular form given the depth of cut of said ditch, drain, or water course, and of Branches

with at the bottom, with at the top at their respective sources and outlets and at each

one hundred (100) foot stake thereof; and have made a computation of the number of cubic yards of earth to be excavated and removed from said ditch, and of the Branches

between each the one hundred (100) foot stakes, and the estimated cost per cubic yard for the removal thereof; and that we have correctly and accurately summed up the total number of cubic yards of earth to be excavated and removed for the entire length of said ditch, and of Branches

and have made an estimate of the total cost of laying out, establishing and construction of the whole work, as shown in our report thereof, attached hereto and marked "Exhibit 'B,' of Ditch No. 30" and made a part of this Report

X

We have also specified the time and manner in which the work shall be done, as shown in our report thereof, attached hereto, and marked "Exhibit 'C,' of Ditch No. 30" and made a part of this Report

We have filed with this Report an account of the names of the laborers and the time each was employed by us, and every other item of expense by us incurred in and about said work, which said account is marked "Exhibit 'D.' of Ditch No. 30 attached hereto.

And we have given in tabular form the names of the owners of each tract of land, to be benefited or damaged, the description of each tract benefited or damaged, (said names of owners and descriptions being the same as appears on the County Tax duplicates of said County of Gooda Minn.), and the total number of acres in each of said tracts, the estimated number of acres in each of said tracts of land to be benefited or damaged (as the case may be), and the amount that each tract of land will be benefited or damaged by the construction of said work,

and also the total estimated benefits as shown in our report thereof, attached hereto, and marked "Exhibit 'E.' of Ditch No. 30" and made a part of this Report

And we would respectfully report that in our opinion the estimated expense of the construction of such ditch will be less

are less than the utility of the proposed ditch including the damages awarded therefor
The total Estimated benefits amount to \$26500 and the total Estimated cost of this same is \$20984

We further find that the proposed ditch will be of public benefit and utility and conducive to the public health Commission therefore
