

May 17, 1948

Mr. Wayne Ridge
1825 - 2nd Ave. So.
Anoka, Minnesota

Dear Mr. Ridge:

On May 10th the Board made arrangements with you to complete the engineering work on Ditch No. 41 and you were apparently supposed to take care of the matter immediately following - on May 11th. The contractors informed the Board that you did not do this so it was found necessary for the Board to attempt to make some other arrangements for the engineering work.

Mr. Streetley has agreed to complete the work. Under the circumstances your services on this ditch were terminated on May 13th.

Yours truly,

EAC/gs

E. A. Carlson, County Auditor
