

St. Cloud Oct. 3 - 1910

Mr. Arthur A. Caswell (Auditor)

Anoka Minn.

Dear Sir Your communication of Sep 30th at ^{hand} Mr Arthur Morgan is not in the State at present, Mr Bent E. Morgan went to Mississippi & will probably not return in time to be with the Board on the 8th - Would it not be well to have the Board appoint Mr. Hill to take Arthur Morgan's place in this matter. He probably has Blanket Bonds covering all Ditches in that County and it would be convenient for him to look after the matter - I am sure this will be agreeable to Arthur E. Morgan. He wrote me ~~in substance~~ to that effect, Mr. Hill did some work for Arthur Morgan on other ditches - but in this case Arthur Morgan would want to be relieved of his bonds as Mr. Hill takes the ditch in his care - I suggest Mr. Hill because of the convenience, living in Anoka. As he does the matter could be adjusted with more ~~ease~~ dispatch - but if the Board prefered any other Engineer of course they can appoint

I suggest this course, and assure you it will meet the approbation of Arthur Morgan - that is to relieve Arthur Morgan of his bonds & appoint an other Engineer to complete the work on Ditch No 43 Anoka Co. Minnesota

I am respectfully yours John E. Morgan Assistant Eng
St. Cloud Minn.
