VIEWERS' REPORT.

Filed Feb 21 1909

Arthur D. Barrett
County Auditor.

No. 708.

And we further report that at the completion of our work as aforesaid we did sum up the total estimated benefits of the construction of said Public Ditch and its Branch and find and hereby report the same to be the sum of Eighteen Hundred ²/₄ Fourteen (\$1814.00) Dollars; and that we did sum up the total estimated cost and expense of the construction of said Public Ditch and its Branch and find and hereby report the same to be the sum of Sixteen Hundred ⁹/₁₆ Twenty One ²⁸/₁₀₀ (\$1621.78) Dollars, including the damages awarded therefor.

We further report that we have considered the relative utility and estimated expense of construction of said Public Ditch and its Branch and find and hereby report that the utility of the same is greater than the said estimated expense thereof, including said damages awarded.

We further report that the said proposed Ditch and its Branch will be of public utility; and that the construction of the same is practicable for the following reasons: It will drain and render tillable a large quantity of land which is now wet, overflowed and of no use for any purpose; and it will remove large quantities of stagnant water, which is now a menace to the public health.

Respectfully submitted,
