D. 1890, proceed to hear and determine said petition; and said Board having determined that the construction of such ditch would be of public benefit or utility, or conducive to the public health, convenience or welfare, we did accept said petition, and thereupon did appoint, as viewers of said proposed work, three (3) resident freeholders of said Anoka County, who are not interested in the construction of said proposed work, and are not of kin to any of the parties interested therein, and directed them to meet, preparatory to commencing their duties as such viewers, at the office of the County Auditor in said County, ~~at~~ in the city of Anoka on the 12th day of July 1890; and it appearing to the satisfaction of said Board that certified copies of the said petition and order of said Board appointing them as said viewers was issued to and served upon said viewers, as by law provided, they proceeded, at the time set in said order, with a surveyor who is a civil engineer, and made an accurate survey of the line of said Ditch and Branch from its source to its outlet, and did cause stakes to be placed along said line at each 100 feet, as numbered progressing down stream from its source, and made and filed a report thereof; and reported that said Ditch & Branch would be of public utility; and in their said report made the necessary computations and assessments, description of location, the land through which the same would pass, the names of the owners, and the damages or allowances thereto, the expense attending such work, and all the estimates, as required by law, duly sworn to as by law required.

And the Auditor of said Anoka County did, after the filing of said report, cause a notice to be given, to be published, posted and mailed, as by law provided, of the pendency of said petition and of the time and place set for the hearing thereof;
