

Highway Web Application Tools

Basic ID tools:

Clicking on a construction icon on the map will produce a popup window with project information and a link to additional information.

Search/Locate tools:

Clicking on this tool displays a pop-up window displaying all of the construction project mid points within the county. Click on the project text to zoom to the project location on the map.

Use this tool to search for an address. Enter an address in the pop-up window (Enter a house number, a street name or partial street name). If multiple matches are returned, click on the address that you are looking for and the map will zoom to that address.

Tips:

-Do not include city name or any punctuation.

-If you are having trouble locating an address, try entering just the house number, or just the street name, or even just a portion of the street name.

Enter a property ID and click the results will zoom to the parcel.

Navigation tools:

Zoom in to next extent

Zoom out to next extent

Go to default extent

Find your physical location on the map

******If you have a mouse wheel, that also works for zooming in and out**

Miscellaneous tools:

Legend

Choose aerial photos or the basemap

This button allows you to view a list of map layers and to turn these layers on and off.

You can use this tool to add a bookmark to the map so that you can quickly return to an area of interest on the map. To add a bookmark, click on the icon with the plus sign on it in the Bookmark pop-up window. Name the bookmark and click add. To retrieve a bookmark, click on the icon on the left in the bookmark popup window and select the bookmark you want.

Print a hard copy of a map.
