# Anoka County Property Search Application

Help Document

The **search tool** (shown below) can be used to search Addresses, Parcel IDs, Plats, Half Sections, Schools or Public Buildings. Use the dropdown to select the category to search.

Search tips:

Address Search: Enter a house number, a street name or partial street name. If multiple matches are returned, click on the address that you are looking for and the map will zoom to that address. Do not include city name or any punctuation.

If you are having trouble locating an address, try entering just the house number, or just the street name or even just a portion of the street name.

Property ID: Enter with dashes – 06-31-24-33-0108 (You can also search without dashes)

Plat: CIC - *CIC NO 123*

   Condos - *CONDO 123*

   Aud Sub - *AUD SUB NO 123*

   Reg Land Survey - *RLS NO 123*

   ROW Plat - *ROW NO 59 ANOKA COUNTY*

Half Section: N-13-30-24 (N/S-Section-Township-Range)

Schools: Enter the school name. Or enter the school type, e.g. "High School"

Public Buildings: Enter the type of building, e.g. "Police" or "Library"

   Or enter the name of the building, e.g. "EAST BETHEL CITY HALL"

   Or enter the city the building is in, e.g. "Blaine"

Other Tools:

Basemap selection – Select between aerial photos or regular basemap

Pictometry Tool – Open the tool and then click on the map to display oblique aerial photos of the area on the map selected

Mailing Labels tool – (See page 3)

Near Me tool – Enter an address or click on the map to generate a list of geographically relevant features near the point on the map. Adjust the search radius with the slide bar on the tool

Layer tool – Turn layers on or off. The contour layer will be greyed out until the map is zoomed-in

Print tool – The print tool will create a PDF of the area of the map that displays on the screen. Parcel information will autofill on the print if a parcel has been searched, or identified by clicking on a parcel in the map

Legend

Measure tool – Measure area, length, or find latitude and longitude for a point on the map

Drawing tool – Use to mark up a map or add annotation

Contact information for the GIS office

Street Intersection Search Tool – Enter the names of the streets that intersect using this format – street name"&"street name, e.g. Main"&"3rd – select the street intersection from the dropdown to zoom to the intersection

Mailing Labels Tool
