- \* The County pays for 100% of a Standard Median Design such as plain concrete. If a community requests decorative median such as red brick, stamped concrete, or exposed aggregate concrete the City will pay the additional cost above the cost of standard median.
- \*\* In communities less than 5,000 people the County pays for 100% of the cost of the traffic signal effective in March of 1986. The County collects on behalf of the cities (less than 5,000) "Municipal State Aid Dollars" because those cities do not qualify for state aid funds. These funds are used to pay the City Share.
- \*\*\* In the event that the City requests purchase of right-of-way in excess of those right-of-ways required by county construction the cities participate to the extent an agreement can be reached in these properties. For instance a city may request a sidewalk be constructed alongside of one of our roadways which would require additional right of way, in this case the City may pay for that portion of the right of way. Acquisition of right-of-way for new alignments shall be the responsibility of the City requesting the alignment.
